

## Questioning support for Herschel Walker

### Letter to the editor

#### Editor:

Current Lt. Governor Geoff Duncan is appalled by Herschel Walker's deception and loose morals, but not the man running to replace him – Bert Jones.

Mr. Jones also touts the false “election integrity” platform saying that hard working Bulloch County poll workers doing three audits in 2020 lack integrity. The 2020 election was exceptionally fair.

Our area's state senator, Billy Hickman, supports Mr. Jones to the tune of having his name up on his own driveway. Neither Jones nor Hickman can name any specific instances of fraud in 2020 with all the past ones already adjudicated as false.

From election denial to antivax policies that I believe misled local folks during the pandemic, while simultaneously sitting on the hospital board, Hickman has shown he cannot fill the late Jack Hill's shoes.

Jack Hill's support of science/ public health and actual family values in practice, not word, is sorely missed. Greg Brock Statesboro
