

## Letter to the editor

# Taking exception with Rep. Allen's vote against Biden electors

Editor: Our Congressman Rick Allen just twice voted to grossly violate state's rights both before and after the insurrection by trying to override the Georgia certified vote and electors for Joe Biden.

During the insurrection, Allen and his GOP colleagues refused to mask in the secure locations they were jammed into during the emergency, creating chaos within chaos with super spreader behavior honed at Trump rallies.

Neither Allen nor his boy in Washington are conservatives, they are simply not.

Since Allen loves to tell us he is an expert in business principles, let's apply them to Allen himself. What to do with both those who plan and those who execute physical destruction of property?

Lock them up.

Where are all the conservatives that love to say with crossed arms and lantern jaws that "we are a nation of laws" when democracy is in the balance? Daily (even hourly) devotion to the 2nd amendment while refusing to discuss the 25th means only part of the Constitution is important to you.
